Logo

The elements of the signet signet correspond to the individual characteristics of the company; the square symbolizes reliability and stability, the wheel – 360° service and comprehensive customer care. The arc corresponds to a flexible approach to tasks, and the hexagon is creativity and skillful use of unconventional solutions when they are needed. **All these elements make up a comprehensive service from A to Z.**

Colors inspired by Bauhaus, which as an artistic and craft movement draws on the idea of the beauty of form, utility and puts the recipient at the center of design thought.

Substantive and logistical support

Our team of experts helps you plan and coordinate all aspects of the event, taking care of every detail.

Design

We create unique and functional projects tailored to the needs of our customers, using the latest trends and technology.

Technical support

We guarantee technical support at every stage of the project and efficient assembly and disassembly of the stand.

Experience

We have 26 years of experience in the industry. We are well organized, which allows us to act quickly and flexibly. For you, this means, above all, comfort in cooperation with us.

Exhibition Stands

We have been designing, manufacturing and installing trade fair stands since 1999. We are a family business that values relationships with customers and long-term cooperation. We are constantly increasing our technological and personnel facilities, thanks to which Arsstudio is a team of over 30 experts who take care of the smallest detail of your project every day. We gained experience at fairs, events, business meetings and congresses in Poland, Europe and the world.
